Civil Engineering Technician

Location: Bismarck, ND

Lowry Engineering is now accepting applications for a Civil Engineering Technician. This position will work out of our Bismarck, ND office. A qualified candidate will be a self-starter with a high attention to detail and great organizational skills. This person will assist project manager and engineers with plan production for civil design projects by preparing site plans, utility plans, construction documents, road and grading plans, and right-of-way plans using AutoDesk Civil 3D.

Duties and Responsibilities:

- Support project engineer/lead Civil Engineering Technician in the preparation of design documents used for the planning, bidding, and construction of engineering related projects.
- Creating CAD drawings from oral or written instructions
- Organizing the production of plan sets
- Laying out details and performing detailed quantity takeoffs
- Create site and grading plans
- Create surface from survey points using break lines, boundaries, and editing tools.
- Other duties as assigned.

Required Qualifications:

- Two-year technical degree in Engineering Technology or equivalent experience
- Working knowledge of AutoDesk Civil 3D.
- Experience in Microsoft Office
- Must be capable of performing independently and learning quickly
- Ability to contribute and work well on a team
- Some travel will be required
- Ability to speak and write English clearly
- Ability to conduct themselves in a professional manner
- Excellent oral and written communication skills
- Must have a valid driver's license

Lowry Engineering has an excellent salary and benefits package. Please send resume and cover letter to our office or email us at: info@lowryeng.com
