## Construction Inspector

Location: Bismarck, ND

Lowry Engineering is seeking a full-time seasonal Construction Inspector to help support projects in North Dakota. The position will be located out of our office in Bismarck, ND. The selected individual will provide construction oversight and work with the Construction Manager and Engineers to ensure construction work is performed efficiently, on schedule, and in accordance with engineering standards.

### Job Responsibilities:

- Manage, direct, monitor, and document project progress during the construction phase of municipal and private infrastructure construction projects and highway construction projects
- Perform construction staking
- Perform general construction administration duties such as documentation of work completed, measuring of pay quantities, and materials sampling
- Other duties as assigned

### Qualification Requirements:

- Required Education: High School Diploma and four (4) years of experience or an Associate's Degree in a related field
- Years of experience preferred: 2+ years in construction or field inspection
- Must have a valid driver's license
- Ability to perform physical work
- Ability to speak and write English clearly
- Excellent oral and written communication skills
- Must be able to work in all weather related conditions
- Must be capable of performing independently and learning quickly
- Some travel will be required

Lowry Engineering has an excellent salary and benefits package. Please send resume and cover letter to our office or email us at: [info@lowryeng.com](mailto:info@lowryeng.com)
