

Experienced Project Engineer-E.I.T.

This position will work under a licensed Civil Engineer, but is expected to have the knowledge and skills necessary to complete projects on time and within budget independently with little oversight.

Job Responsibilities:

- Planning, design, preparation of plans, specifications, reports, and contract documents relating to sewer, water, storm-sewer, roadway, parking lots, and pedestrian access
- Coordination and correspondence with governing entities, project architects, sub-consultants, and owners
- Prepare engineering estimates
- Visit job sites as needed to support projects
- Be a trusted advisor to the clients you serve
- Travel for projects as needed
- Other duties as assigned

Qualification Requirements:

- Must have a Bachelor's Degree in Civil Engineering
- Years of experience preferred: 3+ years
- Proficiency in AutoCAD Civil 3D, HydroCAD, Microsoft Office or equivalent software
- Ability to work in a team environment
- Ability to manage multiple projects
- Self-Motivated
- Must be able to carry out instructions on an independent basis
- Ability to conduct themselves in a professional manner
- Excellent oral and written communication skills
- Must have a valid driver's license
- Must have passed the FE exam
